

## Call for Papers: Transplantation

*The Journal of Immunology (The JI)* publishes peer-reviewed manuscripts describing novel findings in all areas of experimental immunology, including basic and clinical studies.

*The JI* will publish a **special collection of transplantation articles\*** in 2023.

These articles may be **Full-Length** or **Cutting Edge** articles.

Subject areas may include:

- Organ, tissue, and stem cell transplantation
- Organ and tissue modification, engineering, donation, and preservation
- Xenotransplantation
- Histocompatibility
- Drugs and pharmacology
- Graft-versus-host disease

Submitted manuscripts should not have been published previously, nor be under review at another journal. Manuscripts will be evaluated following our typical peer review process and are expected to meet the standards for publication in the AAI journals.

All manuscripts should be submitted online via our online [submission system](#). During the online submission process, select "Transplantation" under the "Category" drop-down menu. Please visit the [Instructions for Authors](#) page for more information on preparing your manuscript.

For additional information, please contact [infoJI@aai.org](mailto:infoJI@aai.org) with "Transplantation" in the subject line.

Submissions will be reviewed as they are submitted until **October 31, 2023**. This special collection will be published as a digital collection in 2023, but papers will appear online as they are accepted.

***\*Accepted articles will receive 2 FREE color figures***
